

Dear Sirs:

I understand that you are introducing a new service whereby Low Power FM will take priority over current FM translator services. There is one FM translator service that I would hate to be forced off of the air by LPFM, that is K-LOVE on 104.3, 88.9, and 90.1 in my area. K-LOVE is the premier Christian music station in my area with a quality and ministry that cannot be surpassed. My community had been without a Christian music radio station for many years and this station supplies a great service to the Christians in our area. It would be a shame to let a high-quality broadcast like K-LOVE to be knocked off the air by LPFM. Please take this into consideration as you make your decisions. Thank you.

Mike Turner
